

BATA-WAF

From the age of 3 years

From 2 players

Contents: 36 cards

Aim of the game : Reclaim all playing cards.

This game of battle was designed for small children.

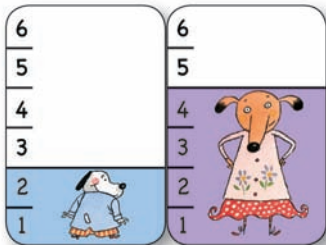

Rules of the game: Deal out the cards. Each player forms a pack with his cards, which he places in front of him face down.

At the same time the players turn over the first card of their pack. The one who placed the card with the biggest dog wins. Sometimes players will turn down two cards with dogs of the same size. In this case, they must say "Bata-waf".

They each put another card on top of their card, hidden face down this time. Then another card face up. The one who placed the last card with the biggest dog wins all the cards.

Children who do not know how to count can easily work out who wins, by comparing the size of the dogs.

Warning! Choking hazard.
